took any photographs, the term of copyright in them will be 50 years from the date of publication.

The purpose of copyright protection is primarily to protect the interests of authors. All intellectual property laws have to balance the interests of creators on the one hand and society on the other in order to promote creativity. It is, therefore, necessary for the term of protection to end at some point of time. Once the term of copyright in a work ends, which must happen sooner or later, the work enters the "public domain" after which publishers are free to make their own adaptations and interpretations of it, as in the case of other classic works.

Under the Universal Copyright Convention the minimum term of such protection is normally 25 years after the death of the author and under the Berne Convention for the Protection of Literary and Artistic Works it is 50 years. India is a member of both conventions. While it is open to a country to extend the term beyond the minimum, it cannot impose such longer term on other countries. Therefore, if India were to extend the term of protection, most other countries would be under no obligation to provide such extended term and the Indian works affected could be republished in those countries freely but not in India.

The Government appreciate the concern which has been expressed regarding the works of Gurudev Rabindranath Tagore which, like other great works, from part of the common heritage of mankind. The provisions of the Copyright Act, 1957 are under comprehensive review keeping in view many suggestions for amendment of its provisions which have been received and the experience which has been obtained in its working and this issue is being duly considered along with the other relevant issues.

Termination of Project on Intensive Care Therapy on Rabie

*39. SHRI RAMSINH RATHWA:

SHRI SURESH PACHOURI: Will the Minister of HEALTH AND FAMILY WELFARE be pleased to state:

(a) whether it is a fact that the Indian Council of Medical Research has terminate a nine month old project on the intensive care therapy for the rabies patients in the country when it was making a breakthrough;

(b) if so, what are the reasons therefor;

(c) whether Government have received any representation from the researchers of the project; and

(d) if so, what is the reaction of Government thereto?

THE MINISTER OF HEALTH AND FAMILY WELFARE (SHRI M. L. FOTEDAR): (a) to (d) A statement is laid on the Table of the House.

Statement

ICMR have terminated a research project on rabies, as the Emeritus Scientist, who was conducting it, expired. Representations have been received from the staff engaged on the project. However, the staff on extra-mural projects like the one on rabies is engaged only for the duration of the project.

Aids Care Units in the Country

*40. DR. NAREDDY THULASI REDDY: Will the Minister of HEALTH AND FAMILY WELFARE be pleased to state:

(a) what is the number of AIDS Care Units in the country and in Delhi;

(b) whether there is any proposal to establish some more such units; and

(c) if so, what are the details thereof?

THE MINISTER OF HEALTH AND FAMILY WELFARE (SHRI M. L. FOTEDAR): (a) to (c) A statement is laid on the table of the House.

Statement

(a) The Government has identified thirteen major cities for establishment of AIDS Units for the management of AIDS patients. Funds for purchase of essential equipment have been released to the States/UT Governments and training of medical and para-medical staff in management of AIDS patients has also been completed. In Delhi an AIDS Unit has been established at the All India Institute of Medical Sciences.

(b) No, Sir.

(c) Does not arise.

AIIMS Not Equipped to handle AIDS Cases

38. SHRI KRISHAN LAL SHARMA:
SHRI KRISHAN KUMAR BIRLA:

Will the Minister of HEALTH AND FAMILY WELFARE be pleased to state:

(a) whether it is a fact that All India Institute of Medical Sciences is at present not properly equipped to handle AIDS and HIV infected patients with safety;

(b) if so, what are the reasons for the shortcomings in this regard; and

(c) what steps Government propose to take to ensure proper and safe treatment of AIDS and HIV patients in AIIMS?

THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND FAMILY WELFARE (SMT. D. K. THARA DEVI SIDDHARTHA): (a) No Sir, the All India Institute of Medical Sciences is fully equipped to handle HIV infected persons and AIDS patients.

(b) and (c) Does not arise.

Cracks in the Roofs of Jagannath Temple at Puri

39. SHRI KRISHAN LAL SHARMA: Will the Minister of HUMAN RESOURCE DEVELOPMENT be pleased to state:

(a) whether it is a fact that some cracks have recently appeared in the roof and other parts of Jagannath Temple at Puri;

(b) if so, the details thereof;

(c) whether it is also a fact that some cracks had appeared last year also in the said temple;

(d) whether there is any similarity betwen these two types of cracks; and

(e) what action is being taken or is proposed to be taken by Government to obviate recurrence of such defects?

THE MINISTER OF HUMAN RESOURCE DEVELOPMENT (SHRI ARJUN SINGH): (a) and (b) No fresh cracks have appeared recently in the Jagannath Temple at Puri. However while inspecting the interior of the sikhara over the garbhagriha, during the RATH YATRA in July 1991, the experts of the Archaeological Survey of India noticed two small old cracks only on the inner face of walls forming the sikhara on the garbhagriha.

(c) Yes, Sir.

(d) No, Sir.

(e) The steps taken for the proper conservation of the Jagannath Temple Puri are:

(i) Removal of accretionary plaster from the surface of the main temple for exposing the sculptured surface as well as cracks, if any.
